HELICOPTER-HIKING YOUR TICKET TO PARADISE

Fly by helicopter, hike and camp, be the soaring eagle over mountain tops, perch wherever freedom takes you, feel the thrill of wild places no other human has ever been to.

We offer 7, 10, and 12 day hiking trips by helicopter with emphasis on wildlife, geology or exploring, tailored to every age group and hiking experience. With group sizes of 2-4, we specialize in customized trips.

Our trips range over thousands of square kilometers, including Nahanni National Park Reserve, a UNESCO World Heritage site. Hikes run from late June to late August and are camping trips with tent accommodation that have a modern, luxurious edge featuring helicopter transportation, equipment, food and no trace hiking.

Make a discovery:

- Wildlife – Dall's sheep, mountain goats, caribou, moose, wolves, bears
- Fossils of the former ocean floors - like Ammonites, Corals and Trilobites
- Geological Formations - including karsts, sink holes, deep canyons, glacier fields, spires and hot springs
- A wealth of breathtaking mountain scenery - with turquoise lakes, grey undulating mountains scored through with the colours of the rainbow, high alpine valleys in total solitude, vast wilderness in the South Nahanni ranges of the Mackenzie Mountains.

Solitude Excursions is family owned and operated – and is our way of life. Our commitment extends not only to our clients and a smoothly run business but also to our mountains. We dedicate ourselves to keeping this land the way it is right now – absolutely and entirely WILD.
